

NC-82 Series 3-1/4" Thermal Terrace Doors

Product Information - Glass Options & Combination

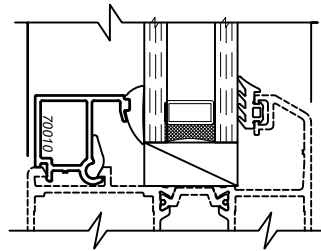

GLAZING

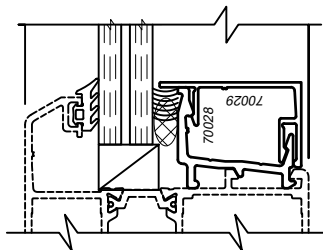

The windows can be interior or exterior glazed with .050 thick extruded aluminum glazing beads accommodating thicknesses from 1/4" up to 1". Dual or triple glazing is an option utilizing an interior panel sash that is a take out sash. Venetian blinds are available with the dual glazed window options. See the quick reference chart below for all glazing options. For actual details refer to the glazing section in the back of the 3410 section for optional glazing and blind details.

Please contact WINCO for project specific information

¹ While the lock tumblers can be re-pinned by a qualified lock-smith, they are of non-standard depth and proprietary asymmetric design and are not suitable for Single Master-Key configuration common in commercial buildings.

² Von Duprin Panic Bars or other Panic Devices are not compatible with the NC-82 Terrace Door due to the proprietary design of the Multi-Point Lock configuration.
